REFLECTION

Being a freshmen is being new to all activity in this school so this year is only my first time in experiencing the SOM Week although the event is simple but it was very fun. We've got to experience something besides of our academic and we play the kahoot in the morning. By the afternoon we witness then new crowning Mr. and Miss SOM 2019.

On this event our representative of accountancy got the Mr. Accountancy 1st runner up the Miss Accountancy got 3rd runner up. For me whatever the outcome is fine because they all did their best for representing each course although I just felt a little bit disappointed because I really want our Mr. Accountancy to win the crown but he didn't .
